

## Product information

### VITO Papierstapelscheiben

The product consists of a tear resistant paper coated with a pressure sensitive acrylic adhesive. It has a low adhesive strength.

## Product composition

**Carrier**, paper

**Adhesive**, modified acrylic

**Liner**, siliconised PET-film, transparent, 75 µm

## Application

VITO Papierstapelscheiben are used as distance pads to stack furniture elements.

## Product benefit

- suitable to stack furniture elements with plastic, melamin resin coated or lacquered surfaces
- acrylic adhesive with low adhesive strength for easy removal
- equipped with finger lift
- the product is also available on rolls for the automatic application with common label machines

## Technical data and product properties

paper thickness	0.45 mm	
paper density	0.61 g/cm <sup>3</sup>	
peel adhesion acc. to DIN EN 1939	stainless steel at 20 °C	≥ 9 N / 25 mm
temperature resistance	-20 °C to +80 °C	

## VITO Papierstapelscheiben

### Processing

The most important processing parameters and information on cleaning are listed in our Information on Processing Adhesive Tapes.

### Storage and shelf life

6 month after receipt of goods, when stored at 18 °C and 60 % relative humidity protected from sunlight, in original packaging

### Special Information

The data and technical information presented are characteristic or average data. All advices are given to the best of our knowledge. You are kindly requested to conduct your own tests to determine the suitability of our product for your application. Our General Conditions answer any questions on guarantees and liabilities for these products unless other legal regulations apply.
